-Johnson residence-
High risk Warrant service
318 Manhattan Lane

OBJECTIVES:

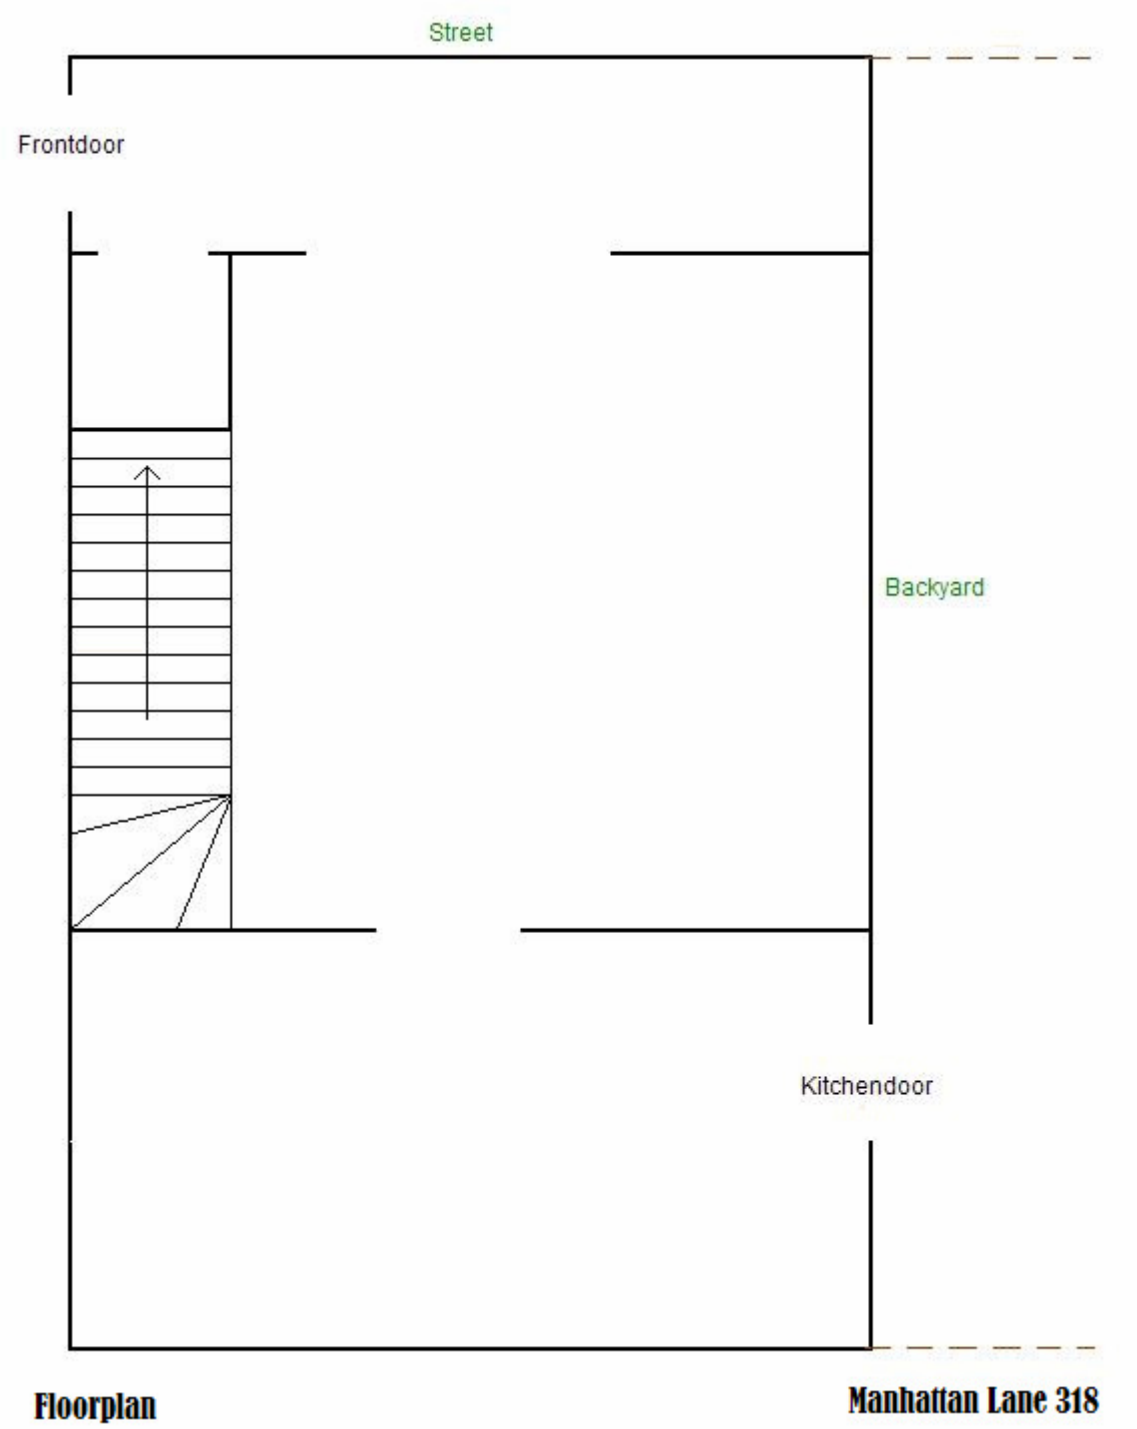

- Rescue any civilians.
- Clear the Nightclub.
- Arrest main Suspect: Albert Johnson.
- Arrest any other present Suspects.
- Look for evidence of Johnson's activities.

Last week there was a big fire in Johnson's house.
The fire department came, and extinguished the fire as usual.
Happily, only the first floor burned.

After the fire was done, the Fire expert was pretty sure that the fire started with an explosion.
But evidence couldn't be found easily.
This week, the renovation of the house started.
During this renovation, samples of explosive material were found.
So the employees called in the police.
They sended an undercover officer,
who confirmed that Mr. Johnson probably owned weapons and explosions.
So they sent a patrol car to arrest Mr. Johnson, and early this day they ordered the SWAT team.
Reason was that the officers estimated Mr. Johnson too smart and strong for a usual police team.
Highground cover was set up, and several SWAT teams were called in.

Gentlemen, this is a dangerous situation.
We have reason to believe that Mr. Johnson knows of our activities.
And also that he probably have called some friends to protect him.
If they indeed know of our assault, they will likely be armed.
Highground thought they saw a man with body armor,
but that couldn't be confirmed.
The good thing is, that an additional SWAT team is standing-by in case
you would need them.

So watch out, choose your gear carefully,
and Go Get 'em.

Here you have a plan of the Ground Floor.
But plans of the First floor don’t exist anymore.
And if we would have them, they wouldn’t be reliable.
Johnson has changed his house, especially the first floor.

Also, due to the fire the rooms won't be as complete as the plan would say.

ENTRY:

The only available Entry is here.
The backyard.
We had hoped that we could use the front door, but that's firmly locked.
And totally unavailable due to the renovation.

The Front door.

SUSPECTS:

Albert Johnson:

Sex: Male
Descent: Caucasion
Height: 5’10”
Weight: Approx. 200
Eyes: Brown

Friend(s)

There will be probably one or more friends at the house.
Keep your eyes open,
cause they’re even dangerous as Johnson.

CIVILIANS:

We don't know if there are any civilians out there,
nor how many there are.
An ambulance was called in, but drove off again
very quickly.
We don't know the reason for this.
The driver on duty couldn't be found,
but we can't wait for it.
(Rumor is that there were shots fired at the paramedics,
so check it out.)

There's a trendy Nightclub nearby.
The police wasn't able to evacuate it completely.
The employees and some guests refused cooperation
to the police.
So they are still inside the Nightclub.
Go inside and arrest them.
Use force if necessary, but remember that it are *civilians*
who you're dealing with.

Albert Johnson divorced long time ago, and lives alone
now.
So the only thinkable civilians will be on the street and
in the nightclub.

Keep 'em safe and warm until the Paramedics arrive
